I strongly OPPOSE SB00650 because people will misuse this just to cause grief/stress on someone's life. People like my ex wife tried having my son taken away from me by saying my son was in danger just because I own firearms, we went to court and she had no evidence that I was a danger to my son or anyone else for that matter because I properly store my firearms when they are not in use. I am a law abiding citizen that understands firearm safety is key to preventing accidents involving a firearm. I truly believe if this bill is passed that my ex wife will falsely accuse me of something just out of spite so she can take my hobby away from me since she cannot take my son from me.

I also OPPOSE HB06962 and HB06848.
